# IEEE/IET Electronic Library (IEL)

- Journals, conference proceedings, standards from IEEE and IET, plus select content dating back to 1872
- More than 4.5 million articles in full text PDF format
- 192 **IEEE** journals, magazines and transactions
- 30+ **IET** journals and magazines, plus 25+ IET conference titles
- Proceedings from over 1,700 IEEE and IET conference titles
- Complimentary access to more than 11,300 papers from 20+ **VDE** conference titles
- Over 3,900 approved and published IEEE standards
- IEEE Redline Versions of Standards
- More than 1.7 million authors
- Inspec index records for all articles
- Backfile to 1988

# IEEE-Wiley eBooks Library 2018

IEEE-WILEY  
eBOOKS LIBRARY

- IEEE Press publishes technical books in all the fields served by IEEE.
- Since 2001, IEEE Press has published its works jointly with John Wiley & Sons Inc.
- The Wiley-IEEE Press Imprint has digitized more than 940 titles to offer convenient online access to growing areas of research.
- In February 2010 all eBook titles were made available through the IEEE *Xplore* digital library.
- More than 940 titles
- Expect to add ~40 new titles each year
- Over 17,500 individual chapter PDFs

# MIT Press eBooks Library— Computing and Engineering Collection 2018

- IEEE has partnered with the MIT Press to bring additional high quality eBooks content in computer science and engineering to IEEE *Xplore*
- Online access to more than 740 titles in fields including computer science, artificial intelligence, information theory, computer programming, information technology, electrical engineering, and computer science
- More than 14,000 individual chapters available in PDF
- The MIT Press eBooks Library is available as an add-on to your existing IEEE *Xplore* subscription or as a stand-alone subscription

# IEEE Quality Makes an Impact

Latest studies reinforce that the top cited publications in the world are from IEEE

- The top 20 journals in EE\*
- 18 of the top 20 journals in Telecommunications
- IEEE has the #1 cited journals in Computer Hardware, Artificial Intelligence, Automation & Control, Information Systems, and Remote Sensing
- IEEE Access has an impact factor of 4.098 (up from 3.55)
- Cited in patents 3x more than any other publisher\*\*

## IS THERE A REPRODUCIBILITY CRISIS?

*“More than 70% of researchers have tried and failed to reproduce another scientist's experiments, and more than half have failed to reproduce their own experiments.”*

## HAVE YOU FAILED TO REPRODUCE AN EXPERIMENT?

Most scientists have experienced failure to reproduce results.

*Nature* **533**, 452–454 (26 May 2016) doi:10.1038/533452a

# Code Ocean in IEEE Xplore

- IEEE introduced a new module within IEEE Xplore (in the Code and Datasets Tab) for Code Ocean that allows users to leverage the tools of Code Ocean right in IEEE Xplore (without leaving the site).
- Users can perform key functions within the module such as download files, run algorithms, etc.

The screenshot displays the IEEE Xplore search results page for the paper "Minimum mean brightness error bi-histogram equalization in contrast enhancement". The interface includes a search bar, filters for "Conferences (2)" and "Journals & Magazines (2)", and a "Show" dropdown menu with options for "All Results" and "Open Access". The main results list shows the paper title, authors (Soong-Der Chen; A.R. Ramli), and publication details (IEEE Transactions on Consumer Electronics, 2003, Volume: 49, Issue: 4, Page s: 1310 - 1319). The "Code" icon is circled in red. A callout box highlights the "Code Available" badge, also circled in red, and provides additional information: "2 Author(s)", "408 Paper Citations", "2 Patent Citations", and "3432 Full Text Views". The IEEE logo is visible in the bottom right corner.

IEEE

# Understanding the Technology Landscape with InnovationQ Plus

Run a semantic search across US patents on the full text of a journal article, conference paper or standard to identify the top organizations patenting in technologies discussed in the document

# Building a search strategy

- Start broad, then narrow down with refining terms
- Seek key terms in abstract, claims and specifications
- Gather synonyms for these key terms

# Breaking it down...

- What is the invention?

## ***Optical assembly for laser radar system***

- What does it do?

***Compact optical assembly that moves in tandem with a laser radar system. Eliminates need for large scanning mirror.***

- How does it do it?

***Assembly comprises a light source, a lens, a scanning reflector and a fixed reflector. Scanning reflector moves relative to light source, adjusting focus of the beam along the line of sight.***

# Key Concepts

(57)

## ABSTRACT

A compact optical assembly for a **laser radar system** is provided, that is configured to move as a unit with a laser radar system as the laser radar system is pointed at a target and eliminates the need for a large scanning (pointing) mirror that is moveable relative to other parts of the laser radar. The **optical assembly** comprises a light source, a lens, a scanning reflector and a fixed reflector that are oriented relative to each other such that: (i) a beam from the light source is reflected by the **scanning reflector** to the **fixed reflector**; (ii) reflected light from the fixed reflector is reflected again by the scanning reflector and directed along A line of sight through the lens; and (iii) the scanning reflector is moveable relative to the source, the lens and the fixed reflector, to adjust the focus of the beam along the line of sight.

## Transactions on Electron Devices

[Browse the T-ED homepage on IEEE Xplore](#)

The Transactions on Electron Devices publishes original and significant contributions relating to the theory, modeling, design, performance and reliability of electron and ion integrated circuit devices and interconnects, involving insulators, metals, organic materials, micro-plasmas, semiconductors, quantum-effect structures, vacuum devices, and emerging materials with applications in bioelectronics, biomedical electronics, computation, communications, displays, microelectromechanics, imaging, micro-actuators, nanoelectronics, optoelectronics, photovoltaics, power ICs and micro-sensors. Tutorial and review papers on these subjects are also published and occasional special issues appear to present a collection of papers which treat particular areas in more depth and breadth.

**New Policy Effective July 1, 2016 for Authors Publishing to IEEE Journals** - [Click here to learn more](#)

### Submitting Manuscripts for Possible Publication in T-ED

All contributed and invited paper submissions to the IEEE Transactions on Electron Devices, including briefs, letters, regular and special issue papers must be submitted using IEEE's web-based ScholarOne Author Submission and Peer Review System. Manuscripts submitted in any other way will be returned to the sender.

To submit manuscripts using ScholarOne please [click here](#) or login to ScholarOne using the box on the right.

For information on using ScholarOne Manuscripts (also known as Manuscript

# What else increases an IEEE author's visibility?

IEEE's relationships with indexing and abstracting providers

# Submission

---

---

Publish

# IEEE journal or IEEE conference?

- A **journal article** is a fully developed presentation of your work and its final findings
  - Original research results presented
  - Clear conclusions are made and supported by the data
- A **conference article** can be written while research is ongoing
  - Can present preliminary results or highlight recent work
  - Gain informal feedback to use in your research
- Conference articles are typically shorter than journal articles, with less detail and fewer references

Publish

# IEEE journal or IEEE conference?

## IEEE Journals

- IEEE journals are cited 3 times more often in patent applications than other leading publisher's journals

- A high percentage of articles submitted to any professional publication are rejected

## IEEE Conferences

- IEEE Conference proceedings are recognized worldwide as the most vital collection of consolidated published articles in EE, computer science, related fields
- Per IEEE Policy, if you do not present your article at a conference, it may be suppressed in IEEE *Xplore* and not indexed in other databases

# Paper Structure

## Title

An effective title should...

- Answer the reader's question:  
*"Is this article relevant to me?"*
- Grab the reader's attention
- Describe the content of a paper using the fewest possible words
  - Is crisp, concise
  - Uses keywords
  - Avoids jargon

Good  
Title

VS.

Bad  
Title

Paper Structure

# Good vs. Bad Title

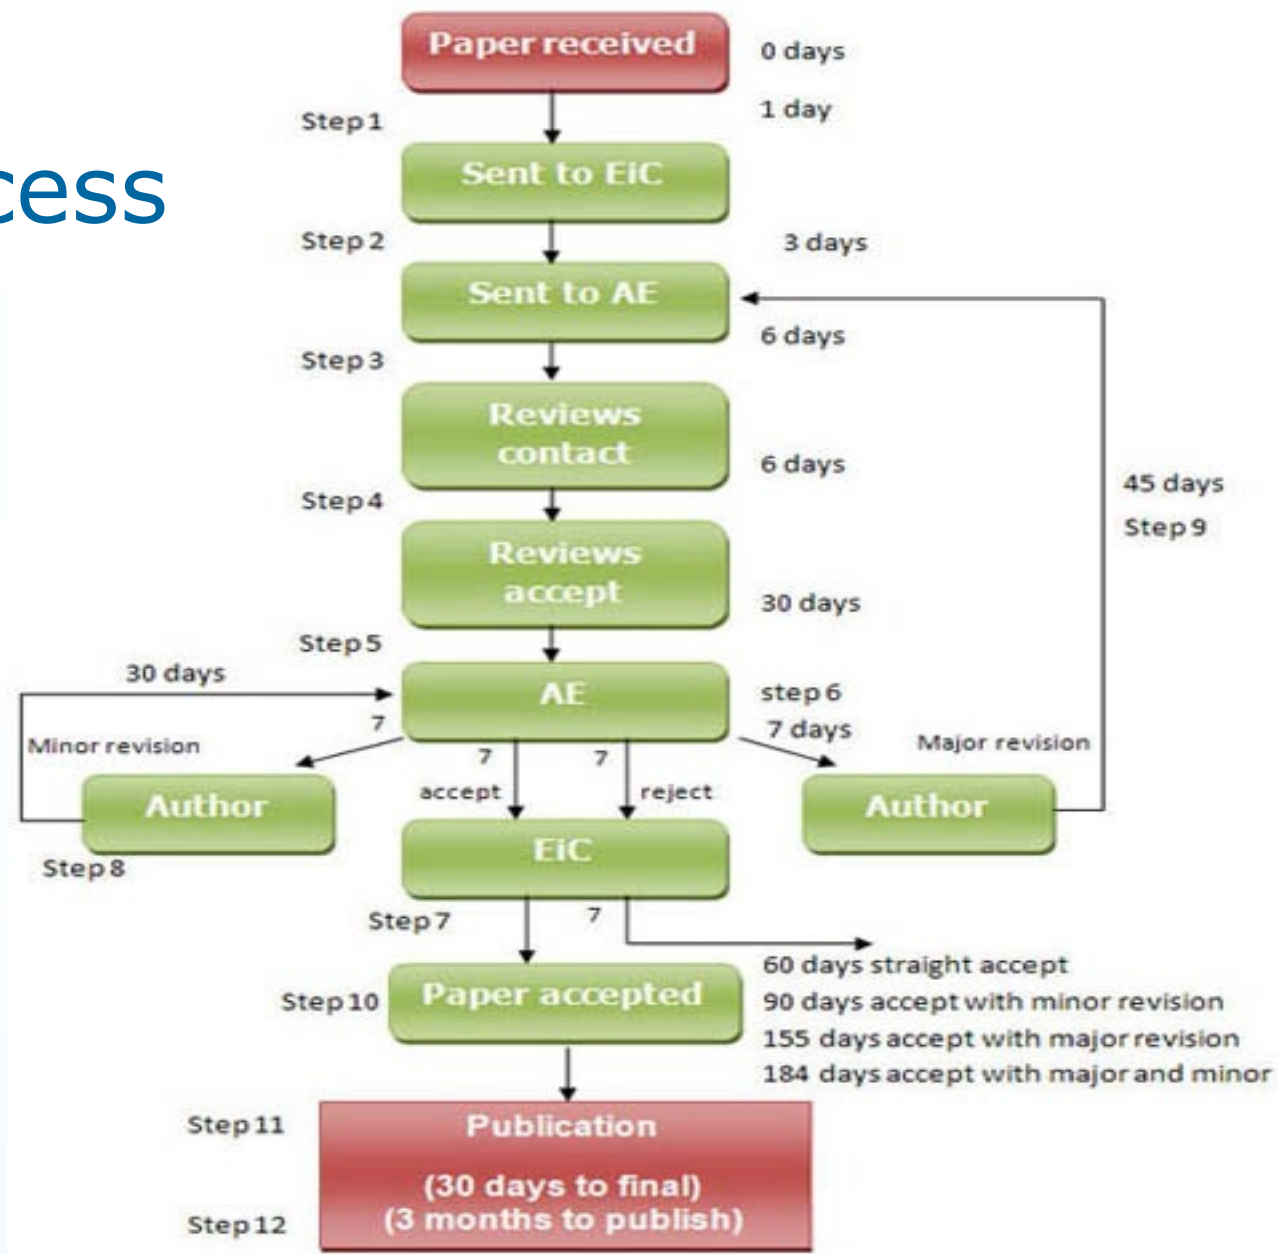

*A Human Expert-based Approach to Electrical Peak Demand Management*

**VS**

*A better approach of managing environmental and energy sustainability via a study of different methods of electric load forecasting*

# Review Process

# Review Process

e.g. IEEE Transactions on Information Technology in Biomedicine

## Audience

# Why IEEE editors and reviewers reject papers

- The content is **not a good fit for the publication**
- There are serious scientific flaws:
  - Inconclusive results or incorrect interpretation
  - Fraudulent research
- It is poorly written
- It does **not address a big enough problem** or advance the scientific field
- The work **was previously published**
- The **quality is not good enough for the journal**
- **Reviewers have misunderstood the article**

# Resubmission of Previously Rejected Manuscripts (SPS)

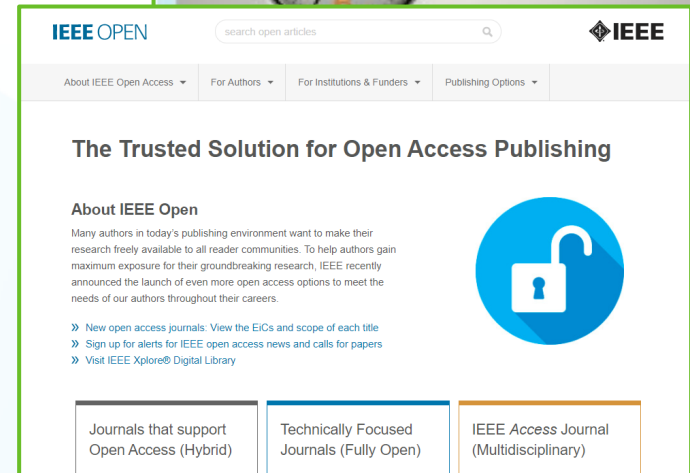

Authors of manuscripts rejected from any journal are allowed to resubmit their manuscripts only once. At the time of submission, you will be asked whether **your manuscript is a new submission or a resubmission** of an earlier rejected manuscript. If it is a resubmission of a manuscript previously rejected by any journal, you are expected to submit **supporting documents identifying the previous submission and detailing how your new version addresses all of the reviewers' comments**. Papers that do not disclose connection to a previously rejected paper or that do not provide documentation as to changes made may be immediately rejected.

<http://signalprocessingsociety.org/publications-resources/information-authors>

# IEEE Open Access Program

To help authors gain maximum exposure for their groundbreaking research and application-oriented articles, IEEE offers three options for open access (OA) publishing—Hybrid Journals, a Multidisciplinary Open Access Journal, and fully Open Access Journals—all designed to meet the varying needs of our authors throughout their careers.

All IEEE Journals offer a Gold Open Access option. For authors with funder mandates to publish in Gold fully OA journals, we already have in place several successful Gold fully OA journals such as the multi-disciplinary *IEEE Access*, the **IEEE Photonics Journal**, the **IEEE Journal of the Electron Devices Society**, the **IEEE Journal of Translational Engineering in Health and Medicine** and more. With these successful titles, IEEE has published thousands of open access articles in *IEEE Xplore*.

# About the New IEEE Open Access Journals

Following are some details regarding the new options coming soon for IEEE authors:

- All of the new open access options will be fully compliant with funder mandates including Plan S
- All articles will be published under the Creative Commons Attribution License (CC-BY) enabling authors to retain copyright
- Independent editorial boards will drive IEEE's commitment to publish high-quality articles including cutting-edge studies and breakthroughs in technology innovation
- Each new journal will follow IEEE's established high standard of peer review, drawing on expert technical communities to continue to publish highly cited content
- The new open access journals and sub-sections will be hosted on the IEEE *Xplore*® platform, visited by over five million unique users per month.
- The new journals will begin accepting submissions in the fall of 2019 and publish their first articles in early 2020.

More information on these new titles will be available on: [open.ieee.org](https://open.ieee.org)

# IEEE has invested in many fully Gold Open Access vehicles

Article Influence  
Score

IEEE Access® is a multidisciplinary, applications-oriented, all-electronic archival journal that continuously presents the results of original research or development across all of IEEE's fields of interest. Supported by author publication fees, its hallmarks are a rapid peer review and publication process with open access to all readers.

*This journal is 100% open access, which means that all content is freely available without charge to users or their institutions. All articles accepted after 12 June 2019 are published under a CC BY 4.0 license\*, and the author retains copyright. Users are allowed to read, download, copy, distribute, print, search, or link to the full texts of the articles, or use them for any other lawful purpose, as long as proper attribution is given.*

# IEEE Article Sharing and Posting Policies

## As Applied to Each Stage of the Article's Life-Cycle

### >> PRIOR TO SUBMISSION TO AN IEEE PUBLICATION (PREPRINT)

#### **Authors may share or post their preprints:**

- On the author's personal website or their employer's website
- On TechRxiv or ArXiv

### >> SUBMITTED/ACCEPTED ARTICLE

#### **Authors may share or post their author-submitted article:**

- On the author's personal website or their employer's website
- On institutional repositories, if required
- In the author's own classroom use
- On Scholarly Collaboration Networks (SCNs) that are signatories to the International Association of Scientific, Technical and Medical Publishers' "Sharing Principles"

#### **Upon acceptance, previously posted versions must be replaced by the accepted version. Authors may share or post their accepted article:**

- On the author's personal website or their employer's website
- On TechRxiv or ArXiv.org
- In a funder's repository<sup>1</sup>

All posted articles must include the IEEE copyright notice (©20xx IEEE)

### >> FINAL PUBLISHED ARTICLE

#### **For non-open access articles published under standard copyright transfer:**

- Authors may not post
- Authors may share copies for individual personal use
- Authors may use in their own classroom with permission from IEEE
- Authors may use in their own thesis or dissertation
- Third-party reuse requires permission from IEEE

### >> GOLD OPEN ACCESS ARTICLES<sup>2</sup>

#### **Under Creative Commons Attribution License (CC-BY):**

- Authors and third parties (including funder repositories) may post/share/use the final published article anywhere without permission, including for commercial purposes or to create derivative works
- Authors retain copyright, but end users have very broad rights provided that they always credit the original author

<sup>1</sup> IEEE policy provides that authors are free to follow public access mandates to post accepted articles in funding repositories. When posting in a funding repository, the IEEE embargo period is 24 months. However, IEEE recognizes that posting requirements and embargo periods vary by funder, and IEEE authors may comply with requirements to deposit their accepted articles in funding repositories where the embargo is less than 24 months.

<sup>2</sup> **Gold open access articles** are made available for free online immediately upon publication. This is made possible through the payment of an article processing charge by the author or his/her institution or funder.

# TechRxiv™ PrePrint Server

- TechRxiv is an **open, moderated repository for unpublished and pre-review research** in electrical engineering, computer science, and related technology.
- Authors can quickly disseminate their work to a wide audience to gain feedback of a draft version and claim credit for their unpublished research.
- Aim is to increase the accessibility of scientific findings, improve research, and build the future of scholarly communication.
- Authors can post preprint papers to TechRxiv regardless of where they eventually intend to submit and publish the paper.
- **TechRxiv is for preprint research only.** All submissions to TechRxiv are screened prior to acceptance but are not peer reviewed.

# IEEE Author Tools

# Locate and Use IEEE Author Tools

[http://www.ieee.org/publications\\_standards/publications/authors/authors\\_journals.html](http://www.ieee.org/publications_standards/publications/authors/authors_journals.html)

IEEE offers a suite of tools to help authors prepare their manuscript and find the right publication outlet.

Our package of tools is unique among scholarly publishers.

## Inside this Issue

- [Welcome to the June Authors@IEEE newsletter](#)
- [Free Webinars from IEEE](#)
- [IEEE Launches New Website for Authors](#)
- [10% Off English Language Editing at American Journal Experts](#)
- [Create Compelling Images for Your Article](#)
- [Contact Us](#)

## Welcome to the June Authors@IEEE Newsletter

In this issue, learn more about an innovative website for journal authors, a new discount available through IEEE, and how to create compelling images. Plus, sign up today for free webinars on various aspects of publishing.

## Free Webinars from IEEE

You might be interested in the following webinars being offered by IEEE:

- **Bibliometrics** on **27 June 2017**, 10:00-11:00 a.m. EDT. This one-hour online course explores the appropriate and ethical use of bibliometric indicators such as the Impact Factor, the Eigenfactor, the Article Influence Score, the Scimago Journal Rank, and the Source Normalized Impact per Paper (SNIP). Presented by Dr. Gianluca Setti, professor of engineering at the University of Ferrara, Italy, and member, IEEE Publications, Services, and Products Board.
- **Enhance Your Article: Share Your Code via Code Ocean** on **28 June 2017**, 10:00-11:00 a.m. EDT. This one-hour online training provides IEEE authors with an overview of the partnership IEEE has in place with Code Ocean—a cloud-based executable research platform that allows authors to upload, share and run their code. This partnership allows readers of IEEE Xplore articles that contain associated code linked to the article the ability to execute the code in the cloud without any special hardware or setup. Spend an hour with us to learn more about how you can enhance your article. Presented by Simon Adar, Code Ocean.
- **Publishing Your Article in a Journal** on **18 July 2017**, 1:00-2:00 p.m. EDT. This one-hour course covers why publishing is important, the

# Open Researcher and Contributor ID (ORCID)

ORCID is a unique, persistent identifier for authors that helps them:

- Ensure their work is discoverable and connected to them throughout their career (including moves and name changes)
- Minimize the time spent entering repetitive information for manuscript submissions and grant applications
- Eliminate name ambiguity and ensure proper attribution

IEEE will require ORCID IDs for all corresponding authors effective July 2016.

# eBook: The IEEE Guide to Writing in the Engineering and Technical Fields

- Brought to you by Wiley-IEEE Press
- Written for engineers, technical professionals, scientists, researchers, teachers, and students
- A tool to help written work more clear and better targeted for sharing knowledge
- Available for download:  
<https://ieeexplore.ieee.org/xpl/bkabstrctplus.jsp?bkn=8052361>

# IEEE Author Guide Always Available

- Authors learn how to prepare, write, and submit quality technical articles
- Can be downloaded
- Includes embedded links to information, forms, etc.
